UniRazak’s goal of producing leaders

UNIVERSITI Tun Abdul Razak’s Razak School of Government (RSOG) offers specialised courses related to government service, public policy and leadership.

The first of its kind in the country and emulated by others, UniRazak’s RSOG provides specialised academic programmes designed to produce knowledgeable human capital that is capable of managing the public service in a challenging global environment.

Towards this end, rigorous efforts are undertaken in formulating the course contents and the teaching-learning methods and strategies to ensure compliance not only to national standards and fulfill the criteria set by various international accreditation systems.

Graduates of RSOG will complete their degree with internship stints intended to provide hands-on experience in managing and working in the public sector.

Internship is offered in collaboration with public sector agencies and students will register after the completion of all required courses.

RSOG Dean Associate Professor Datuk Mohd Ibrahim Abu Bakar says: “I can assure you that the study experience in RSOG is unique, enlightening, rewarding and enriching for everyone.

“Our programmes have been designed to produce a new breed of leaders, scholars, civil servants, private sector employees, economists and managers who are ready to face a challenging and competitive world.

“Students will be nurtured to produce a new pool of competent, capable, knowledgeable and ethical human capital to assist the government and industries in enhancing the country’s global competitiveness.

“I am enthusiastic about the future of RSOG and the vision and mission it aspires to. Indeed, there is no better time than now to join us, make your dreams a reality and create the future you have always wanted,” he says.

In the course of developing its long-term programme, RSOG is focusing on the setting up of a resources centre that will culminate into a premier hub for governmental and public policy studies. The short-term plan will also see RSOG venturing into seminars, discourses and workshops on current issues pertinent to public policy and national development.

This strategy paves the way for RSOG to link with potential customers and stakeholders and acquire their feedback to improve products and deliverables. These training events will also provide venues for experts in the related areas to meet while generating ideas for RSOG.

Prominent speakers and experts making appearances in such events would not only benefit general participants but also provide forums for UniRazak’s students and academics at large to update and immerse themselves into the most current topics and findings in the related fields.

UniRazak’s RSOG is committed to providing an educational experience that goes beyond the classroom and into the real world.

RSOG is constantly looking innovative ways to immerse its students in the type of stimulating environment that challenges their current way of thinking and exposes them to new ideas and concepts in a collaborative environment.

UniRazak’s RSOG offers undergraduate courses in the field of public administration with emphasis on leadership, policy studies and economics - Foundation for Humanities and Social Sciences, Bachelor of Arts (government and public policy) (hons), Bachelor of Arts (leadership) (hons) and Bachelor of Economics (hons).
