CIMB collaborates with UniRazak

by Zatil Husna Wan Fauzi

KUALA LUMPUR: Universiti Tun Abdul Razak (UniRazak) is collaborating with CIMB Group Holdings Bhd to run a programme of leadership talks, aimed at sharing practical industry knowledge with the students and academics.

The first programme called “Transformational Leadership — The Case of CIMB”, was presented by CIMB group chief executive Datuk Seri Nazir Razak in the theatrette.

The collaboration is a continuous effort in expanding the professional network and tying up with industry players.

Nazir shared the chronology of CIMB’s growth and anecdotes of his own story with the banking group and growing up with the financial firm. He also shared his aspirations of heading the group. Nazir said he believes that organisations today must adopt a paradigm of continuous improvement as the environment is changing fast as a result of the information revolution.

In conjunction with the leadership series, Nazir did the honour of launching the “Asean Hall”, by signing a plaque to commemorate the event.

CIMB had contributed some funds to UniRazak. A lecture hall was named after the banking group.

The official opening of the lecture hall was attended by UniRazak president and vice-chancellor Prof Datuk Dr Md Zabid Haji Abdul Rashid.

As part of the collaboration with UniRazak, CIMB will be invited to participate in the university’s activities with regard to career and recruitment opportunities.

UniRazak will work closely with CIMB on procuring the university’s finest students for potential professional placement or employment for the banking group.
